

Date: 2025 03 25, 10:00-15:30,
Location: BLOXHUB, Fæstningens Materialgård,
Meeting room: Los Angeles, Frederiksholms Kanal 30, 1473 København

DaCES Molten Salt Workshop 1: *industry challenges with molten salt*

The day centers around 3 presentations on different perspectives on molten salt and semi-structured discussions after each one.

Anja Mudring (AU) will present resending on the current research focuses. Jens Pelle (Aalborg CSP) will present on some of the challenges they have overcome with their extensive commercial usages of molten salts. Finally, Laura Voigt (Seaborg, TBC) will present some of the unique challenges with the molten salt in reactor technology.

We have left ample time after each presentation, to discuss how it relates to your research/application with other molten salt practitioners.

Registration is required due to limited seats.

Free for DaCES members. 750 DKK participation fee for non-DaCES members.

Full program:

Time	Content
9:30	Arrival & registration, coffee
10:00	Welcome and introduction to the day, by DaCES.
10:10	Presentation by Anja Verena Mudring, professor, AU.
10:45	Exercise 1: expectations, challenges and success with molten salt.
11:15 - 11:25	Break
11:25	Presentation by: Jens Taggart Pelle, <i>Aalborg CSP, VP of technical sales</i>
11:55	Exercise 2 – Molten salt and energy storage.
12:45 – 13:30	Lunch
13:30	Presentation by: Laura Voigt, Seaborg, chemistry team lead (TBC)
14:00	Exercise 3 – Molten salt and reactors.
14:45 - 14:55	Break
15:00	Panel debate between presenters and event wrap up, moderated by DaCES.
15:30	Events ends
15:30-16:00	Networking, coffee, tea and cake
